1.

INTRODUCTION

The LV= ISA

The LV=ISA is a Stocks and Shares Individual Savings Account which allows you to invest in a range of LV= investment funds (“Funds”) in a tax-efficient way.

Its Aims

The LV=ISA aims to increase the value of your investment over the medium to long term (5 years or more).

Your commitment

- There is no maximum or minimum term that you must hold the LV= ISA.
- You commit to invest either a lump sum or a series of regular monthly payments.
- You commit not to invest more than the ISA Regulations allow you to in any one tax year (From 6 April to 5 April the following year).
- You commit to inform us if your circumstances change, such that you are no longer eligible to invest in an ISA.

Further information on these commitments is provided below in the “Questions and Answers” Section.

The risks

There is a wide choice of Funds in the LV= ISA. Not all funds have the same potential risks or rewards.

Below is a list of risk factors that apply to all the Funds in the LV= ISA. You should also refer to the “Your Choice of Funds” Section for information on the other risk factors that apply to each specific Fund.

- **Not Guaranteed** – The Funds in the LV= ISA are stock market related investments so you are not certain to make a profit. You may get back less than your original investment. This may be due to a fall in the value of the securities and/or shares in your chosen Fund; the effect of Fund charges, or a combination of both.
- **Volatility** – The value of shares and securities and any income from them may fall as well as rise. Past investment performance is not a guide to future investment performance.
- **Not for the short-term** – The risk that you may not get back your original investment is greater in the short term because an initial charge is taken when you invest. You should therefore be prepared to invest for the medium to long term (5 years or more).
- **Inflation** – Unless the growth in the value of your investment keeps up with the rise in the price of goods and services (as measured by the rate of inflation), the real value of your investment will reduce.
- **Regulations may change** – ISA Regulations are set by the UK Government. If the Government changes the tax treatment of ISA's this may reduce the growth potential from the investment. Thus there is no guarantee that the tax benefits enjoyed now will continue for the long term.
- **Taking an income** – If you decide to take an income or cash-in part of your investment in your ISA this will reduce the potential to grow the value of your investment in the future and may eat in to your original investment.
- **Access to your investment** – You may cash in your investment at any time. However, in exceptional circumstances, such as immediately following a natural disaster, financial markets may be closed for business, causing the sale of your investment to be delayed.

2.

QUESTIONS AND ANSWERS ABOUT THE LV= ISA

Am I eligible to invest in an LV= ISA?

If you are resident in the UK and aged 18 or over, you can invest in the LV= ISA.

Crown Employees, such as members of the Armed Forces, who are not resident in the UK can also invest and so can their Spouses or Civil Partners. If your circumstances change, for example, you are no longer UK Resident or a Crown Employee, you must inform us immediately.

Please note you cannot invest in an ISA in joint names.

Further information can be found in the LV= ISA Terms and Conditions.

What is the minimum that I can invest in the LV= ISA?

The minimum initial lump sum investment in any Fund is £1,000. A regular savings plan is available in each Fund with a minimum investment of £100 per month.

The regular savings plan is also open to those who have invested a lump sum.

If you choose to invest through a regular savings plan, be aware that your Account may be closed if you do not keep up your payments and reach the minimum investment of £1,000.

See also below the maximum limits on your investment in the ISA.

What is the maximum that I can invest in the LV= ISA?

The maximum that you can invest in the LV= ISA in the current tax year is £7,200.

Regulations allow you to invest in one Stocks & Shares ISA and one Cash ISA each tax year.

The annual ISA investment allowance is currently £7,200 per tax year. Up to £3,600 of that allowance can be saved in Cash with one ISA Account Manager. The remainder of the £7,200 can be invested in a Stocks and Shares ISA, either with the same Account Manager or with a different Account Manager.

For example, you could save £1,000 in a Cash ISA with your bank and up to £6,200 in a stocks and shares ISA.

Or, you could invest the full £7,200 in a stocks and shares ISA.

Please note that from 6th October 2009, a limit of £10,200 (which may include up to £5,100 in a Cash ISA Account) will apply to investors whose 50th birthday falls within the 2009/2010 Tax Year.

If you are in any doubt, speak to your Financial Adviser.

How do I invest in the LV= ISA?

You can invest by completing an LV= ISA Application Form.

Applications can be made by post to Liverpool Victoria Portfolio Managers Limited, PO Box 10033, Chelmsford, CM99 2AL or through your Financial Adviser.

You can make additional investments with a minimum of £500 in the same Fund or £1,000 in a different Fund, by letter or phone, provided you include your full name and investment details for registration purposes.

You can make this payment by personal cheque payable (in pounds Sterling) to LVPM Ltd. If you are paying by a building society cheque please ensure that the building society has endorsed the cheque with your name and your account number. Where the payment is made by an unendorsed building society cheque, the processing of your application will be delayed as we will need you to provide us with evidence to establish the account from which the funds originated.

See also above the maximum limits on your investment in the ISA.

Can I transfer my existing ISA's in to the LV= ISA?

You may transfer all or any of your Cash or Stocks and Shares ISA's from previous tax years to the LV= ISA.

You may transfer all of your Cash ISA from this tax year to the LV= ISA.

You may transfer all of your Stocks and Shares ISA from this tax year to the LV= ISA.

All Transfers must be in the form of cash (we cannot accept investments held in other funds). Be aware that it can take up to 30 days to complete a transfer, during which time your investment may remain in cash before it can be invested in your chosen LV= Funds.

An LV= ISA Transfer Form is available from us on request.

Further information on Transfers in and out of the LV= ISA can be found in the LV= ISA Terms & Conditions.

We recommend you consult your Financial Adviser before proceeding with any transfers.

What happens to the money I invest in the LV= ISA?

The money you invest buys Shares in the LV= Fund(s) specified by you on your Application Form.

Further information on the choice of Funds available to you can be found below in the section "Your Choice of Funds in the LV= ISA".

We will take a 5% Initial Charge on your investment (except for the LV= Money Market Fund where the charge is 1%)

What documentation will I receive after I invest in the LV= ISA?

If you invest a lump sum you will receive: an acknowledgement confirming the number of shares purchased in your chosen Fund(s) and the price paid for them; the details of the Initial Charge taken by us and details of any commission payable to your Financial Adviser.

If you make an additional lump sum investment you will receive a similar acknowledgement.

If you invest through a Regular Savings Plan you will receive an acknowledgement for the first month only. This will also include confirmation of the Bank Direct Debit details for your regular payments.

Can I change my mind after investing in the LV= ISA?

If you are investing on the advice of a recognised Financial Adviser then you have the right to cancel. We will send you a Right of Cancellation Notice when your investment starts and you then have 14 days after receiving the Notice to decide.

This applies when you invest in the LV= ISA for the first time, either as a lump sum or in regular savings plan. It also applies if you decide to make additional lump sum investments in the future.

If you do change your mind within the 14 days, you can cancel your investment by completing and returning the Right of Cancellation Notice form to us.

We will sell your shares at the next Dealing price. The Initial Charge applied when you invested will be refunded. However, please note, if the price of Fund shares has gone down since you made the investment the refund you will receive will be less than you paid.

Further information can be found in the LV= Stocks and Shares ISA Terms and Conditions.

If you are investing on your own initiative (on an Execution only basis) without the services of a recognised Financial Adviser then no Right of Cancellation will apply.

What Funds can I invest in through the LV= ISA?

The following Funds are currently available:

- LV= UK Growth Fund – Accumulation Shares
- LV= European ex-UK Growth Fund – Accumulation Shares
- LV= UK Equity Income Fund – Income Shares
- LV= UK Corporate Bond Fund – Accumulation Shares
- LV= UK Money Market Fund – Accumulation Shares
- LV= UK Fixed Interest Fund – Accumulation Shares
- LV= UK Index Linked Fund – Accumulation Shares
- LV= Stockmarket Fund – Accumulation Shares
- LV= Balanced Managed Fund – Accumulation Shares
- LV= Diversified Income Fund – Income Shares
- LV= Managed Portfolio 4 – Income Shares
- LV= Managed Portfolio 5 – Income Shares
- LV= Managed Portfolio 6 – Income Shares
- LV= Managed Portfolio 7 – Income Shares
- LV= UK Property Fund – Accumulation Shares

More information on the Funds can be found below in the section "Your Choice of Funds in the LV= ISA".

What about tax – do I have to pay anything if I invest in the LV= ISA?

ISA Regulations provide a number of benefits compared to investing outside an ISA:

- All gains will be free of capital gains tax if you cash in all or part of your ISA investment.
- If you take an income from your ISA, there is no tax to pay.
- The ISA Account Manager can reclaim the tax credit on any direct holdings in UK fixed interest securities. It may not be possible to reclaim tax already deducted from overseas dividends or income.
- You do not need to inform the Inland Revenue of any income or gains you receive from your ISA,

Your entitlement to these tax benefits will cease if your personal circumstances change such that you are no longer eligible to hold an ISA account.

This is based on our understanding of current HM Revenue & Customs tax rules and regulations. These rules and regulations may change in the future.

2.

QUESTIONS AND ANSWERS ABOUT THE LV= ISA CONTINUED

What charges apply to my investment in the LV= ISA?

We will take a 5% Initial Charge on your investment, except for the LV= Money Market Fund where the charge is 1%.

Annual Management Charges are also payable. The amount depends upon the Fund you choose. More information on the Annual Management Charges and other expenses can be found below in the section "Your Choice of Funds in the LV= ISA".

If you investing on the advice of a recognised Financial Adviser there may be a cost for the advice you receive. Your adviser will provide you with further details.

In addition, when you buy or sell shares in the Funds through the LV= ISA, a dilution levy may apply.

A dilution levy is a charge that can be levied on those buying or selling shares in a Fund in order to cover the cost of buying and selling underlying securities in the Fund. The levy is a useful way to protect the Fund and its shareholders from the effect of these costs because, if a dilution levy is charged, the proceeds of the levy are paid back in to the Fund.

Any decision on whether to apply a dilution levy would be made by the Authorised Corporate Director of the Funds. Please note, it is not possible to predict with accuracy when one might be applied. However, it is more likely to occur on a very large investment or sale of Shares in the Fund than on a very small one. Full information on the Dilution Levy Policy can be found in the Prospectus of your chosen Fund, which is available on request.

If you are selling shares in your chosen Fund(s) a Stamp Duty Reserve Tax (SDRT) charge may apply.

HM Treasury regulations require a 0.5% SDRT charge to be made on the value of UK shares sold from the Fund by the ACD and on certain other transfers of Shares. The liability may be reduced or eliminated completely in certain circumstances.

The Financial Services Authority's rules allow the cost of SDRT to be met directly from the Fund. Alternatively, to protect the Fund and its shareholders from the effect of SDRT, the cost can be passed on to those investors whose sale or purchase of Shares in the Fund has triggered the SDRT (this is called an SDRT provision). It is not possible to predict accurately whether an SDRT charge will occur, nor whether the ACD will need to make such an SDRT provision on investors selling Shares in the Funds.

Further information on SDRT can be found in the Prospectus of your chosen Fund, which is available on request.

How do I keep track of my investment in the LV= ISA later on?

You will receive statements showing the value of your investments as at 30 June and 31 December each year.

You can check on the latest Fund Share Prices on our website: www.LV.com or by telephone on 0845 113 0273.

Can I switch between funds in the LV= ISA and is there a charge for this?

Yes, you can switch from one Fund to another in the LV= ISA.

However, you will need to keep a minimum of £1,000 in each Fund that you choose to hold.

When you switch you may be charged up to 2% of the value of the Shares being switched.

If you wish to switch please contact your financial adviser; write to us at Liverpool Victoria Portfolio Managers Limited, PO Box 10033, Chelmsford, CM99 2AL or telephone us on 0845 113 0273.

Will I receive an income from my investment in the LV= ISA?

Any income received by the Funds is normally reinvested. However, it is possible to receive income payments to your bank account if you have invested in any of the following Funds:

- LV= UK Equity Income Fund
- LV= Diversified Income Fund
- LV= Managed Portfolio 4
- LV= Managed Portfolio 5
- LV= Managed Portfolio 6
- LV= Managed Portfolio 7

To receive income payments to your bank account, complete the "Income Payment Details" section on your Application Form.

If you decide not to take an income now but want to do so later on, contact your financial adviser; write to us at Liverpool Victoria Portfolio Managers Limited, PO Box 10033, Chelmsford, CM99 2AL or telephone us on 0845 113 0273.

How can I cash in all or part of my investment in the LV= ISA?

Simply contact your Financial Adviser, or write to us at Liverpool Victoria Portfolio Managers Limited, PO Box 10033, Chelmsford, CM99 2AL, or telephone us on 0845 113 0273.

Please note, for your Account to remain open, you must keep a minimum of £1,000 in each Fund that you choose to hold.

Can I transfer my LV= Stocks and Shares ISA to a Stocks and Shares ISA with another Account Manager later on?

Yes, you can. Further information can be found in the LV= ISA Terms & Conditions.

Be aware that it can take up to 30 days to complete a transfer, during which time your investment may remain in cash before it can be invested in your new Account Manager's Fund(s).

We recommend you consult your Financial Adviser before proceeding.

On completion of the transfer your LV= ISA Account will be closed.

Please note, you cannot transfer from a Stocks and Shares ISA to a Cash ISA.

Under what circumstances might my LV= ISA Account be closed?

Your Account would close under any one of the following circumstances:

If you stopped a regular savings plan before reaching the minimum investment level required by the LV= ISA Terms & Conditions (currently the minimum is £1,000).

If you withdrew all of your investment or transferred it to another ISA Account Manager.

If you withdrew part of your investment and the remaining investment was valued below the minimum required under the LV= ISA Terms & Conditions (currently the minimum is £1,000).

If you ceased to be eligible under the ISA Regulations to hold an ISA Account.

If Liverpool Victoria Portfolio Managers Limited ceased to act as the ISA Account Manager. In which case, you would be given 30 days' notice in writing before your Account was closed in accordance with the LV= ISA Terms & Conditions.

In the event of your death.

If the UK Government changed the ISA Regulations and required Liverpool Victoria Portfolio Managers Limited to close your Account.

For more information please refer to the LV= ISA Terms & Conditions.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA

This section provides further information on each of the funds available in the LV= ISA. The information includes an illustration of what you might get back in the future and the effect of charges on an investment in the funds. For a more personalised illustration, please contact your Financial Adviser.

More detailed information can be found in the Simplified Prospectus applicable to each Fund.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= UK GROWTH FUND

Aims of the Fund

The objective of the Fund is to achieve long-term capital growth from investments principally in UK equities (company shares).

This Fund is suitable for

Investors who seek potential growth from their investment over the longer term and are prepared for the potential risk of loss associated with investing in the stock market.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.14%.

More information on this Fund including Risk Factors

Please refer to the Simplified Prospectus of the **LV= Investment Funds I ICVC**.

A copy of the Full Prospectus is also available. Ask your Financial Adviser or telephone us on 0845 113 0273.

What you might get back in the future from investing a lump sum in the LV= UK Growth Fund through the LV= ISA

The effect of Charges on an investment of £1,000 assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£65.00	£1,000.00
Year 3	£1,000.00	£100.00	£1,120.00
Year 5	£1,000.00	£143.00	£1,250.00
Year 10	£1,000.00	£299.00	£1,660.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £299.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 5.3% a year.

What you might get back in the future from investing a regular amount in the LV= UK Growth Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£69.00	£1,170.00
Year 3	£3,600.00	£268.00	£3,730.00
Year 5	£6,000.00	£562.00	£6,590.00
Year 10	£12,000.00	£1,863.00	£15,300.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £1,863.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.9% a year.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= EUROPEAN EX-UK GROWTH FUND

Aims of the Fund

The objective of the Fund is to achieve long-term capital growth from investments principally in European equities, excluding the UK.

This Fund is suitable for

Investors who seek potential growth from their investment over the longer term and are prepared for the potential risk of loss associated with investing in the stock market.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund. In addition please note:

- The Fund invests in European company shares which are priced in the Euro and other foreign currencies. As a result, changes in currency exchange rates between UK sterling and these foreign currencies may alone cause the Fund value to rise or fall.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.11%.

More information on this Fund including Risk Factors

Please refer to the Simplified Prospectus of the LV= Investment Funds I ICVC.

A copy of the Full Prospectus is also available. Ask your Financial Adviser or telephone us on 0845 113 0273.

What you might get back in the future from investing a lump sum in the LV= European ex-UK Growth Fund through the LV= ISA

The effect of Charges on an investment of £1,000 assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£64.00	£1,000.00
Year 3	£1,000.00	£99.00	£1,200.00
Year 5	£1,000.00	£142.00	£1,260.00
Year 10	£1,000.00	£294.00	£1,670.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £294.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 5.3% a year.

What you might get back in the future from investing a regular amount in the LV= European ex-UK Growth Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£69.00	£1,170.00
Year 3	£3,600.00	£266.00	£3,730.00
Year 5	£6,000.00	£556.00	£6,600.00
Year 10	£12,000.00	£1,837.00	£15,300.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £1,837.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.9% a year.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= UK EQUITY INCOME FUND

Aims of the Fund

The objective of the Fund is to achieve a high level of income combined with long-term capital growth from investments principally in UK equities.

This Fund is suitable for

Investors who seek potential growth from their investment over the longer term and are prepared for the potential risk of loss associated with investing in the stock market.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund. In addition please note:

Charges will be deducted from Capital, rather than from Income, and the Capital may therefore be reduced.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.25%.

More information on this Fund including Risk Factors

Please refer to the Simplified Prospectus of the **LV= Investment Funds I ICVC**.

A copy of the Full Prospectus is also available. Ask your Financial Adviser or telephone us on 0845 113 0273.

What you might get back in the future from investing a lump sum in the LV= UK Equity Income Fund through the LV= ISA

The effect of Charges on an investment of £1,000 assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£66.00	£1,000.00
Year 3	£1,000.00	£104.00	£1,120.00
Year 5	£1,000.00	£150.00	£1,250.00
Year 10	£1,000.00	£318.00	£1,640.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £318.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 5.2% a year.

What you might get back in the future from investing a regular amount in the LV= UK Equity Income Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£70.00	£1,170.00
Year 3	£3,600.00	£274.00	£3,720.00
Year 5	£6,000.00	£581.00	£6,570.00
Year 10	£12,000.00	£1,955.00	£15,200.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £1,955.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.8% a year.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= UK CORPORATE BOND FUND

Aims of the Fund

The objective of the Fund is to achieve long-term capital growth and to maximise the capital return whilst moderating the risk of investment at any particular point in the economic and business cycle.

The policy of the Fund is to invest principally in Sterling denominated fixed interest securities issued by corporate entities.

This Fund is suitable for

Investors who seek growth from their investment over the longer term derived predominantly from the income generated by fixed interest securities.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund. In addition please note:

- There are risks that the company issuing the fixed interest security may default and fail to meet its obligations resulting in a loss for the Fund.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.19%.

More information on this Fund including Risk Factors

Please refer to the Simplified Prospectus of the LV= Investment Funds II ICVC.

A copy of the Full Prospectus is also available. Ask your Financial Adviser or telephone us on 0845 113 0273.

What you might get back in the future from investing a lump sum in the LV= UK Corporate Bond Fund through the LV= ISA

The effect of Charges on an investment of £1,000 assuming growth of 6.5% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£65.00	£1,000.00
Year 3	£1,000.00	£100.00	£1,100.00
Year 5	£1,000.00	£143.00	£1,220.00
Year 10	£1,000.00	£294.00	£1,580.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £294.

Putting it another way, if the growth rate were to be 6.5% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.7% a year.

What you might get back in the future from investing a regular amount in the LV= UK Corporate Bond Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 6.5% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£69.00	£1,170.00
Year 3	£3,600.00	£269.00	£3,700.00
Year 5	£6,000.00	£562.00	£6,500.00
Year 10	£12,000.00	£1,849.00	£14,900.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £1,849.

Putting it another way, if the growth rate were to be 6.5% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.3% a year.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= UK MONEY MARKET FUND

Aims of the Fund

The objective of the Fund is to achieve long-term capital growth and to maximise the capital return whilst moderating the risk of investment at any particular point in the economic and business cycle.

The policy of the Fund is to invest principally in UK money market instruments, deposits and cash and near cash.

This Fund is suitable for

Investors who seek growth from their investment over the longer term derived predominantly from the income generated by investment in money market instruments, without exposure to company shares.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund.

Charges on this Fund

There is an Initial Charge of 1% each time you make an investment. There is an Annual Management Charge of 0.5%. Additional expenses on this Fund are estimated at 0.05%.

More information on this Fund including Risk Factors

Please refer to the Simplified Prospectus of the LV= Investment Funds II ICVC.

A copy of the Full Prospectus is also available. Ask your Financial Adviser or telephone us on 0845 113 0273.

What you might get back in the future from investing a lump sum in the LV= UK Money Market Fund through the LV= ISA

The effect of Charges on an investment of £1,000 assuming growth of 3.5% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£15.00	£1,010.00
Year 3	£1,000.00	£29.00	£1,070.00
Year 5	£1,000.00	£43.00	£1,140.00
Year 10	£1,000.00	£88.00	£1,320.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £88.

Putting it another way, if the growth rate were to be 3.5% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 2.9% a year.

What you might get back in the future from investing a regular amount in the LV= UK Money Market Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 3.5% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£15.00	£1,200.00
Year 3	£3,600.00	£70.00	£3,720.00
Year 5	£6,000.00	£158.00	£6,390.00
Year 10	£12,000.00	£551.00	£13,700.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £551.

Putting it another way, if the growth rate were to be 3.5% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 2.8% a year.

3.

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £1,218.

Putting it another way, if the growth rate were to be 4.5% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 2.9% a year.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= STOCKMARKET FUND

Aims of the Fund

The objective of the Fund is to achieve long-term capital growth and to maximise the capital return whilst moderating the risk of equity investment at any particular point in the economic and business cycle.

The policy of the Fund is to invest principally in a range of collective investment schemes, which may include certain other LV= Funds, that provide exposure to equities. Investment of the Fund may be in any geographic or economic sectors of the world, although there will be a bias towards the UK and Europe.

This Fund is suitable for

Investors who seek growth from their investment over the longer term predominantly from investment in company shares, prepared for the risks associated with investing in the stock market including some exposure to overseas assets.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund. In addition, please note:

- The Fund may invest in overseas assets which are priced in foreign currencies. In these circumstances, changes in currency exchange rates between UK sterling and the foreign currency may alone cause the Fund value to rise or fall.
- The Fund may invest in other investment funds which have their own investment objectives and policies. There is no guarantee that these investment funds will achieve their objectives.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.93%.

More information on this Fund including Risk Factors

Please refer to the Simplified Prospectus of the LV= Investment Funds II ICVC.

A copy of the Full Prospectus is also available. Ask your Financial Adviser or telephone us on 0845 113 0273.

What you might get back in the future from investing a lump sum in the LV= Stockmarket Fund through the LV= ISA

The effect of Charges on an investment of £1,000 assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£72.00	£997.00
Year 3	£1,000.00	£126.00	£1,090.00
Year 5	£1,000.00	£192.00	£1,200.00
Year 10	£1,000.00	£426.00	£1,540.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £426.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.5% a year.

What you might get back in the future from investing a regular amount in the LV= Stockmarket Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£74.00	£1,170.00
Year 3	£3,600.00	£314.00	£3,680.00
Year 5	£6,000.00	£698.00	£6,460.00
Year 10	£12,000.00	£2,513.00	£14,600.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £2,513.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.0% a year.

3.

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £2,489.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.1% a year.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= DIVERSIFIED INCOME FUND

Aims of the Fund

The objective of the Fund is to achieve income with long-term growth potential.

The policy of the Fund is to invest primarily through equity and fixed interest exposure using collective investments mainly operated by other fund managers.

This Fund is suitable for

An investor whose primary objective is to receive income along with potential to grow capital over the longer term.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund. In addition, please note:

- Because the Fund has the objective of producing income, the Fund's annual management charges are taken from capital. This may have the effect of limiting future capital growth or eroding capital if there is insufficient growth in the value of investments.
- The Fund may invest in overseas assets which are priced in foreign currencies. In these circumstances, changes in currency exchange rates between UK sterling and the foreign currency may alone cause the Fund value to rise or fall.
- The Fund may invest in other investment funds which have their own investment objectives and policies. There is no guarantee that these investment funds will achieve their objectives.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.86%.

More information on this Fund including Risk Factors

Please refer to the Simplified Prospectus of the LV= Investment Funds III ICVC.

A copy of the Full Prospectus is also available. Ask your Financial Adviser or telephone us on 0845 113 0273.

What you might get back in the future from investing a lump sum in the LV= Diversified Income Fund through the LV= ISA

The effect of Charges on an investment of £1,000 assuming growth of 7% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£72.00	£997.00
Year 3	£1,000.00	£124.00	£1,100.00
Year 5	£1,000.00	£188.00	£1,210.00
Year 10	£1,000.00	£415.00	£1,550.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £415.

Putting it another way, if the growth rate were to be 7% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.5% a year.

What you might get back in the future from investing a regular amount in the LV= Diversified Income Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 7% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£74.00	£1,170.00
Year 3	£3,600.00	£310.00	£3,690.00
Year 5	£6,000.00	£686.00	£6,470.00
Year 10	£12,000.00	£2,457.00	£14,700.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £2,457.

Putting it another way, if the growth rate were to be 7% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.1% a year.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA MANAGED PORTFOLIOS

Information specific to:

- LV= Managed Portfolio 4
- LV= Managed Portfolio 5
- LV= Managed Portfolio 6
- LV= Managed Portfolio 7

The Managed Portfolio Funds aim to provide capital growth opportunities for investors with different attitudes to risk ("risk profiles").

The Company aims to cater for those with a relatively low risk profile via the LV= Managed Portfolio 4 Fund, and cater for those with progressively higher risk profiles through to the LV= Managed Portfolio 7 Fund.

There is no guarantee that these aims will be met. Further information on each Fund follows below:

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= MANAGED PORTFOLIO 4

Aims of the Fund

The objective of the Fund is to achieve long-term capital growth and income generation.

The policy of the Fund is to invest primarily through a portfolio of equity and fixed interest exposure using collective investments mainly operated by other fund managers.

This Fund is suitable for

An investor who wants a relatively stable return and is prepared to accept some risk to capital. This fund is invested in fixed interest funds and has some equity exposure.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund. In addition please note:

- The Fund may invest in overseas assets which are priced in foreign currencies. In these circumstances, changes in currency exchange rates between UK sterling and the foreign currency may alone cause the Fund value to rise or fall.
- The Fund may invest in other investment funds which have their own investment objectives and policies. There is no guarantee that these investment funds will achieve their objectives.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.70%.

More information on this Fund including Risk Factors

A copy of the Full Prospectus is also available. Ask your Financial Adviser or telephone us on 0845 113 0273.

What you might get back in the future from investing a lump sum in the LV= Managed Portfolio 4 Fund through the LV= ISA

The effect of Charges on an investment of £1,000 assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£70.00	£999.00
Year 3	£1,000.00	£119.00	£1,100.00
Year 5	£1,000.00	£178.00	£1,220.00
Year 10	£1,000.00	£390.00	£1,570.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £390.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.7% a year.

What you might get back in the future from investing a regular amount in the LV= Managed Portfolio 4 Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£73.00	£1,170.00
Year 3	£3,600.00	£301.00	£3,700.00
Year 5	£6,000.00	£659.00	£6,500.00
Year 10	£12,000.00	£2,327.00	£14,800.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £2,327.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.3% a year.

3.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= MANAGED PORTFOLIO 5

Aims of the Fund

The objective of the Fund is to achieve long-term capital growth with some income generation.

The policy of the Fund is to invest primarily in global stock markets using collective investments mainly operated by other fund managers with flexibility to gain exposure to fixed interest investments.

This Fund is suitable for

An investor who wants a relatively stable return but is prepared to accept more risk to capital. This fund invests in fixed interest funds and has more exposure to equities than the LV=Managed Portfolio 4 fund.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund. In addition please note:

- The Fund may invest in overseas assets which are priced in foreign currencies. In these circumstances, changes in currency exchange rates between UK sterling and the foreign currency may alone cause the Fund value to rise or fall.
- The Fund may invest in other investment funds which have their own investment objectives and policies. There is no guarantee that these investment funds will achieve their objectives.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.78%.

More information on this Fund including Risk Factors

The effect of Charges on an investment of £1,000 assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Lump sum investment of £1,000

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,000.00	£71.00	£998.00
Year 3	£1,000.00	£121.00	£1,100.00
Year 5	£1,000.00	£183.00	£1,210.00
Year 10	£1,000.00	£403.00	£1,560.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £403.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.6% a year.

What you might get back in the future from investing a regular amount in the LV= Managed Portfolio 5 Fund through the LV= ISA

The effect of Charges on an investment of £100 per month assuming growth of 7.0% a year is set out below. The figures are not guaranteed and serve only to show the effect of charges and expenses on an investment. They could be higher or lower than this. The figures are not inclusive of security transaction costs.

Regular investment of £100 per month.

At End of	Your total investment to date	Effect of deductions to date	What you might get back
Year 1	£1,200.00	£73.00	£1,170.00
Year 3	£3,600.00	£306.00	£3,690.00
Year 5	£6,000.00	£673.00	£6,480.00
Year 10	£12,000.00	£2,392.00	£14,800.00

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to £2,392.

Putting it another way, if the growth rate were to be 7.0% a year, which is in no way guaranteed, this would have the effect of reducing the growth rate to 4.2% a year.

YOUR CHOICE OF FUNDS IN THE LV= ISA LV= MANAGED PORTFOLIO 6

Aims of the Fund

The objective of the Fund is to achieve long-term capital growth.

The policy of the Fund is to invest primarily in global stock markets using collective investments mainly operated by other fund managers with flexibility to gain a minority exposure to fixed interest investments.

This Fund is suitable for

An investor who is prepared to be fully exposed to the risk of stock markets through a diverse portfolio spread across different asset types and markets.

Risk Factors

All the risk factors referred to above in the section "The risks" apply to this Fund. In addition please note:

- The Fund may invest in overseas assets which are priced in foreign currencies. In these circumstances, changes in currency exchange rates between UK sterling and the foreign currency may alone cause the Fund value to rise or fall.
- The Fund may invest in other investment funds which have their own investment objectives and policies. There is no guarantee that these investment funds will achieve their objectives.

Charges on this Fund

There is an Initial Charge of 5% each time you make an investment. There is an Annual Management Charge of 1%. Additional expenses on this Fund are estimated at 0.91%.

More information on this Fund including Risk Factors
